

# Church Digital Support Services

Enabling you to focus on your ministry gifting

## Benefits of using our digital support services

- Streamline your communication and administration
- Increase and improve online engagement
- Free up your precious time
- Reduce your overwhelm of administrative tasks
- Allow you to spend more time at work in your ministry, pastoral care, teaching, discipleship and evangelism
- Good stewardship of time and resources
- Remove administration headaches and systems pain

## Who these services are for

- Small to medium-sized churches
- Busy clergy and church workers
- Teams without in-house resources or digital expertise
- Ready to enhance quality and consistency
- Teams who understand the value of efficient stewardship

## What you receive from this services

- Expertise in church communications, marketing, administration, and compliance
- Access to a team of trained professionals who carry your administrative load
- A real-time client hub for transparent project management and ongoing training support
- Dedicated and responsive assistance from our committed team

## Service offerings

- Social media creation and management
- Website audit, design, hosting, and maintenance
- Engaging email newsletter communication
- Systems audit, knowledge management, documentation and team training
- Future expansion to compliance, financial support, database management, and more

## Our difference

- Team of trained experts in church communication and administration
- Consistent and high quality work
- Reduced cost, not quality
- Collaborative processes, systems and workflows

**These services should not be viewed as a necessary evil to combat administration, compliance and communication, but as an opportunity for good stewardship and church growth.**

**Unlock the potential of efficient church administration and communication.**

**Let's work together to empower your ministry's growth and impact.**
